DESCRIPTION:

EXAMPLES OF WORK:

Lead a crew on complex surveys, instruct and train others in the use of survey equipment, maintain field notes, calculate levels, grades, elevations, and curves and perform complex construction surveying and construction staking. Perform standard tests on Portland cement concrete, asphaltic concrete, soil, aggregate and all other construction material for conformance to specifications, maintain automated records, and function as a resource and trainer to less experienced employees for all testing procedures. Inspect and accept or reject work and materials on all phases of construction projects to insure conformance to plans, specifications, and special provisions. Prepare, maintain and submit inspection reports and records on inspection assignments; maintain project cost records and other construction records; check final records for method of measurement, accuracy and completeness. Drive commercial and non-commercial vehicles. Operate snow removal equipment to assist State Maintenance.

QUALIFICATIONS / REQUIREMENTS:

REQUIREMENTS: Experience in performing activities pertinent to construction work such as surveying, materials testing, or field inspections OR Coursework or training in construction surveying, materials testing, or inspection practices, and in using associated instruments and equipment. Must be at least 18 years of age and possess a valid driver's license.

PREFERRED: Experience leading a crew. Surveying experience and the ability to operate the instruments and equipment. Experience in materials testing and record keeping. Experience with Sitemanager, Microstation, Geopak, word processing, and spreadsheets.

OTHER: Applicants are required to pass the agency's mathematics, plan reading, and bridge plan reading courses OR possess an associate's degree in civil engineering technology, or related discipline. Must have a valid Class A or B Commercial driver's license or the ability to obtain one within 60 days. Regular and reliable attendance.

KNOWLEDGE, SKILLS AND ABILITIES:

Must be proficient in math skills pertaining to the engineering field (trigonometry and geometry). Effective communication skills are required to perform the essential functions of the job. Skill in public relations and coordinating projects. Ability to perform the required work with minimal supervision. Must be able to lift up to 100 pounds, climb, bend, stoop, walk long distances and work long hours in outdoor temperature extremes. Must be able to work with others including the general public, coworkers and contractors. Must be able to report work within 30 minutes under normal driving conditions.
