INSTRUCTOR/ASSISTANT PROFESSOR OF AUTOMOTIVE TECHNOLOGY

Western Wyoming Community College is now taking applications for the above position. This is a full-time 9 month per year faculty position with duties to commence mid-August, 2015. The primary responsibility of this individual is to provide quality instruction to WWCC students enrolled in a variety of automotive classes taught at the main campus in Rock Springs. Courses taught include but are not limited to limited to the 8 ASE areas: engine fundamentals, engine performance systems, brake systems, steering and suspension systems including wheel alignment, automatic transmissions, manual transmission and other drive train components, heating and air conditioning systems and electric and electronic control systems. The Automotive Technology program is a NATEF certified program. Teaching "customized" courses that meet the needs of local business or industry is also common.

An Associate’s degree in Automotive Technology plus five years of relevant work experience is required. ASE certification is also required. This position will remain open until filled; review of applications will begin on July 15, 2015. A completed WWCC application form, resume, letter of application and academic transcripts must be included in the application packet. To apply, visit the Western Wyoming Community College website at: https://wwccwy.peopleadmin.com/postings/search
